# Wedding romance

*Delicate costume jewelry pieces made from dainty seed bead flowers are the perfect accessory for a classic romantic bride. Cut crystal PRECIOSA Three-Cut Beads with a white lining are therefore the most suitable seed bead material for this project. We present several variants of flowers and petals which you can put together as you wish in order to make your own wedding accessories.*

## Procedure:

### The small flower

**Step 1:**  
Cut off ca 30 cm of wire, string 13x TR and create the first loop by twisting the wire so that you have about 5 cm of free wire on one side (fig. 1).

**Step 2:**  
String more TR so that the second loop fits closely to the first (fig. 2).

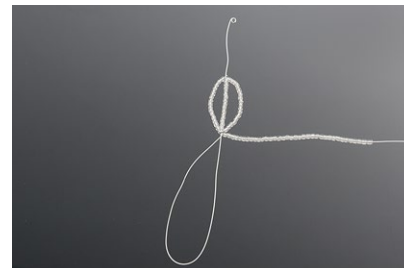

**Step 3:**  
String 13x TR again and create the second loop by twisting the wires (fig. 3).

**Step 4:**  
Repeat Steps 1 and 2 another 3x so that you create a five-petalled flower, string 1x FPB and join both ends of the wire by twisting them together (figs. 4a, 4b). You now have a finished flower which you can use to create an earring or a ring or you can combine it with other flowers and leaves and create hair adornments or other costume jewelry wedding accessories.
