Difficulty: ●●●●●

Technique: stringing, basic beadweaving

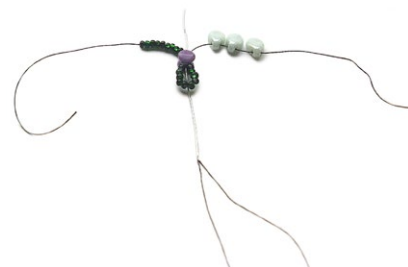

## Procedure:

Step 1:  
Thread the needle. String 10x R10, 1x Pl  
and 10x R10. Thread the needle through  
the Pl.

A loop of R10 will be created,  
on which you will attach the fastening.  
Do not forget to tighten the thread when  
working.

Step 2:  
String 3x P and once again thread  
the needle through the Pl in the same  
direction from the loop to the rocailles.

Step 3:  
String 3x P again and thread the needle  
through the Pl so that a flower is created.

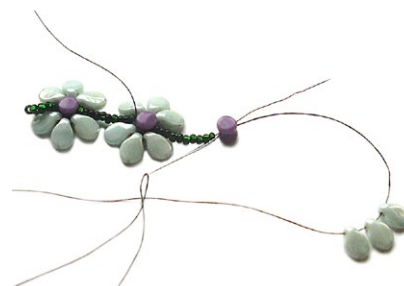

Step 4:  
Thread the needle through the following  
10x R10, tie the ends and continue with  
the work. String 1x Pl, 3x P and thread  
the needle back through the Pl.

Step 5:  
String 3x P and thread the needle through  
the Pl. You have created another flower.  
String 10x R10.

Step 6:  
String 1x Pl and 3x P again and thread  
the needle back through Pl.  
Repeat the procedure according to figures  
5 and 6 until you have the required length  
of the bracelet.

Step 7:  
After achieving the required length  
of the bracelet, string 10x R10 and thread  
the needle back through the Pl.  
This will create a loop for the fastening.  
Sew the thread in firmly and tie several  
knots. Cut off the thread.

## Finishing

Step 8:  
Use the flat nose pliers to attach the  
fastening – the ring and the carabiner.  
You can use Th beads to additionally  
decorate the end of the bracelet with  
the rings.
