cup tips; a carabiner; a counter-ring;
a large chain, for example an adjusting chain;
small rings

a 0.20 mm nylon line; a thin needle; scissors;
thick thread; flexible thread (Opelon,
Elastomer); a thin tailor's thread; snipping pliers;
flat nose pliers (for flattening the beginning
of the line and closing the rings and cup tips)

Difficulty: ●●●●●

Technique: basic beadweaving (square
stitch), stringing

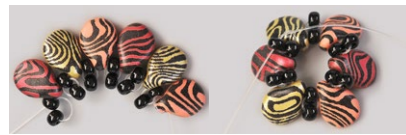

Procedure:

The circle

The three P variants are used in each circle
in the same numbers, i.e. 4 of each.

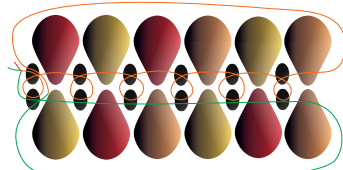

Step 1

String 2x R10. Thread the line through the first
of the strung R one more time. Use the principle
of the right-angle stitch. Additionally string 1x P.
Repeat the stringing of the R and the P a total
of 6 times. Connect the stringing by threading
the line through the R.

Step 2

Insert the needle into the top R. Additionally
string 1x P. Thread the line through the other
top R. Continue in this manner along the entire
circumference. All of the P should be turned in
the same way as in the 1st row. Connect them in
the R. Tie off the ends of the line. Pull them into
the surrounding beads.

The necklace

The central part of the necklace consists
of 7 two-row circles.

The stringing

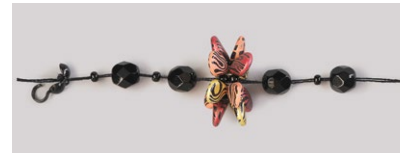

Step 3

String about 10 cm of thin tailor's thread
into the needle. Tie off the ends.
This will create a large loop.
String the thread into it. Fold it in half.

Step 4

Make a large knot at the ends of the thread.
String a cup tip. Start the stringing at
the sides and finish in the direction from
the cup tip: 1x R10, 1x FPB, 1x R10 and 1x
FPB. Create 7 sewn circles in the middle
of the stringing with 2x 6mm FPB and an
R10 between them. String the cup tip at
the end. Carefully tie a largish knot in it.
Shorten the threads after the knots.
Hide them in the cup tips. Close the cup
tips.

The fastening

Create loops on the cup tips.
Attach the chain to the loops.
Adjust the length of the chain as needed.
The total length of the pattern is 40 cm.
Attach the carabiner and the counter-ring
to the end of the chain using a ring.

The bracelet

You will need 14 sewn circles.
Double string Opelon onto a large needle
and fold it in half. String the circles with
2x FPB and 1x R7 between each of them.
Tie off the Opelon under one circle using
three knots. Cut it off.
